# Welcome to Prince Edward Island!

The Mi'kmaq were the first residents of the Island and appropriately named it Epekwitk, meaning "cradled on the waves." Today, PEI is a culturally vibrant province that is home to sprawling beaches, world-class cuisine, pristine golf courses, historic venues, thrilling outdoor activities, a fictitious girl named Anne and the best sunsets in the world.

Boasting more than 800 km of shoreline, PEI is your oyster to explore. We have a number of scenic drives to ensure you don't miss an inch of the Island.

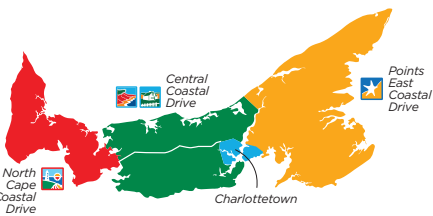

**North Cape Coastal Drive** is the northwestern part of the Island from Summerside to West Point and North Cape to Cascumpec.

**Central Coastal Drive** includes two separate drives. **Green Gables Shore** is located on the north side of the province, featuring the Gulf of St. Lawrence's soft sand beaches and Anne of Green Gables. **Red Sands Shore** is located on the south side of the province, with red sandy cliff beaches and the warm waters of the Northumberland Strait.

**Points East Coastal Drive** covers eastern PEI and features spectacular quiet beaches, small towns and beautiful landscape. Discover the rich history of eastern PEI from Mount Stewart and Elmira to Orwell.

Though information is accurate at the time of printing, we advise you to check ahead and ensure attractions, restaurants and accommodations are in operation.

## MADE IN PEI

The Island's rolling green fields, red cliffs, whitecapped waves and painted sunsets are the ultimate source of inspiration for the farmers, fishers and artists who call the Island home.

When it comes to creating beautiful things, there's something unique about how PEI breathes life into the process for Island makers.

While local artisans work hard to create world-class jewelry, home decor, paintings and even soap, Island chefs use traditional skills and fresh ingredients to create delicious delicacies with offerings harvested from land and sea.

Discover the many unique flavours that make up PEI's culinary identity. The Island produces and attracts talented chefs with a gift for turning the freshest local ingredients and time-honored preparation methods into memorable dining experiences. A PEI meal is always best served with locally-made craft beer, cider, wine and spirits, artfully crafted by Island brewers, distillers and winemakers.

**Prince Edward Island has so many local treasures. If you're looking to bring home a slice of the Island, visit our vibrant markets, unique shops and local artist's studios to find the perfect coastal creation.**

## ISLAND PRODUCTS

When your Prince Edward Island vacation is over, you don't have to wait for your next trip to sip a cold Island craft beer or savour a delicious handmade delicacy produced with the freshest Island ingredients.

PEI potatoes and seafood are world-renowned and sought after by discerning consumers. Increasingly, other PEI products can be found on shelves across Canada including award winning cheese and chocolates.

### **Beverages from PEI Breweries**

There's nothing quite like putting your feet up and taking that first sip of a cold craft beer, cider or hard seltzer on a golden summer day. Prince Edward Island has inspired many delicious beverages that are made right on Island soil. PEI Brewing's Gahan Vic Park Ale is an ode to Charlottetown's gorgeous waterfront park, Bogside Brewing's Brudenell Brown Ale pays tribute to the picturesque Eastern PEI vacation destination, and PEI's Brewing's Colliding Tides Hard Seltzers got their name from the wild phenomenon off PEI's East Point and North Cape where two tides collide.

### **Local Comfort Food to Go**

Fuel your next epic Island adventure with a handmade, handheld, locally sourced, savoury pie from the Handpie Company. Home base is minutes from the Confederation Bridge, but you can find handpies for sale across the Island. Available either hot for eating right away (limited locations) or frozen for taking and baking. Handpies will become your new Island tradition!

### **Chocolate Heaven**

Who can resist premium, handmade chocolate? Inspired by the story and charm of a certain iconic red-head, ANNE of Green Gables Chocolates delivers happiness with every single piece. Whether you pick up a box of ANNE's Caramels, PEI Oysters or the ever-popular COW Chips, each treat is sure to become a new favourite.

### **Award Winning Cheese**

COWS may be best known for their 'World's Best Ice Cream' but they also know a thing or two about producing award winning cheese. PEI milk from small local farms is gently heated to give the perfect combination of character and flavour. COWS Creamery Appletree Smoked Cheddar is a local favourite with its mouth-watering smoky flavour that pairs well with just about everything!

# PEI POTATOES

Potato farming is deeply rooted in the history and culture of Prince Edward Island.

Some of the Island's earliest settlers pioneered the cultivation of potatoes in Canada. After more than two centuries, Island potato farmers continue to demonstrate the same pride, respect for the earth, and commitment to family tradition as their ancestors - always finding new ways to improve. Our farmers share a special bond with the Island's soil, many have grown up on the land they continue to farm.

**96% of PEI potato farms are family owned, and that tradition isn't expected to change anytime soon.**

The Island provides an ideal climate for growing potatoes. Cold, snowy winters break disease and pest cycles, while providing moisture for the next season. Summers are warm and provide adequate sunshine and rainfall to encourage growth and high yield harvests. The Island's famous red, sandy soil is rich in iron and other nutrients that give PEI potatoes their unique quality and flavor. There is something special about our million-acre farm, and there's certainly something special about the people who care for it.

**What does it take to grow a  
quality PEI potato?  
It takes an Island.**

# ISLAND ARTISANS

For a small province, PEI has an abundance of incredible art.

Lucky for us, when inspiration flows for our local artists, artisans and crafters, we get to reap the brilliant benefits! Some makers offer art that is fresh, new, and unique, while others have homegrown businesses that are truly beloved by all, with skill and passion that has been passed down through generations.

Island mills weave creations made from the wool of their own sheep and alpaca to create vibrant hubs of textiles, creativity, passion, and colour. Local potters display their decorative and functional handmade items at their studios.

Seasoned woodworkers are busy turning trees into art and producing carved masterpieces, even as you read this. Stained glass, wrought iron, handmade soaps? **All of these treasures can be found on our Island.**

Does painting, sculpture, photography, or prints pique your interest? Immerse yourself in the process and watch artisans as they work by touring their workshops, studios, or galleries.

Skilled craftspeople are busy year-round, handcrafting one-of-a-kind treasures and exclusive creations forged from a lifetime of experience and Island inspiration. If you're looking to inject some Island vibes into your life, visit one of these Island artisans.

*Seasonally supervised.*

**RIP CURRENTS** are powerful, fast-moving currents that can pull you away from shore. Even in moderate surf, a rip current can move 1.5 meters per second.

## Beach Safety: Break the Grip of the Rip!

Our oceans are beautiful but they can be dangerous. Respect the ocean and the changing conditions to stay safe at the beach. If you have questions, talk to the surfguards!

### Caught in a rip?

- Stay calm. Attract attention. Conserve energy.
- Do not swim against the current.
- Tread water. Waves can assist you back to shore.
- Swim parallel to shore out of the current-toward the breaking waves.

### INFLATABLES are never allowed in supervised swim areas.

When strong offshore winds are present, inflatables and small watercraft (inflatable boats/chairs/mattresses, paddleboards, kayaks, kiteboards, canoes, etc.) are not recommended for use at any time. Even during calm or moderate surf conditions, strong offshore winds can carry inflatables and small watercraft away from the shore quickly.

### Know before you go.

#### When in doubt, don't go out!

- Never swim alone.
- Observe surf conditions. Follow surfguard advice.
- Swim between the red and yellow flags of the surfguard area.
- If surf is present, beware of rip currents.
- Rip currents have calmer water with fewer breaking waves.

### Other Important Tips

- Keep children under supervision.
- Be sun safe. Cover up. Wear SPF. Rent or bring a sunshade.
- Stay hydrated – bring water in a refillable container.

Pass along the sea shore, by farm pastures and woodlots, and through many small communities. An excursion on our **Confederation Trail** is a must-do for your vacation, whether you walk a small section in one of our cities, or cycle the whole tip-to-tip distance.

The Trail follows railway beds with rolled stone dust surface, making it easily negotiated on foot or by bicycle.

## TO DO LIST: CENTRAL COASTAL DRIVE

The Central Coastal Dive is home to breathtaking natural vistas, world famous cuisine and a bounty of fun family adventures. This list of things to do will guarantee the best family vacation ever.

### Hit the Open Seas

While on the Island, you are never more than 15 km from the sea. There's no better opportunity to experience life on the water aboard a fishing boat with a captain as your guide. Book a deep sea fishing excursion from Rusticoville with Joey's Deep Sea Fishing or depart from Covehead Harbour with Campbell's Deep Sea Fishing.

### Test Your Willpower

Tucked in the town of Kensington, the Haunted Mansion is a fun and interactive experience, and with options to bypass certain areas it will satisfy everyone's thrill level! Test your willpower and see just how adventurous your spirit really is.

### Step Back in Time

Avonlea Village offers an experience in genuine Island hospitality showcasing delicious food and quaint shopping. Avonlea is the fictitious name that Lucy Maud Montgomery gave Cavendish in her famous novel, *Anne of Green Gables*. Avonlea Village consists of purpose-built structures combined with heritage ones – to re-create the fictional 19th century hometown of the loveable heroine, Anne Shirley.

### Explore the Land of Anne

In love with all things Anne of Green Gables? Then a trip to the Green Gables Heritage Place should be at the very top of your list. Explore the Green Gables Visitor Centre and see the iconic Green Gables House.

By the Sea Kayaking

Sandspit Amusement Park

### Hit the Rides

Sandspit Amusement Park is the perfect destination in Cavendish for family thrill seekers. Test out local favourite the Cyclone roller coaster or overlook the park in the 70-foot Ferris Wheel. If you're seeking speed, visit Pit Stop Karting to race down the half-kilometre go-kart track!

### Beach It

The star attraction! Cavendish Beach boasts miles of white-gold sand surrounded and protected by gorgeous sand dunes. It's located right in the heart of Cavendish within the PEI National Park, which is convenient for a family trip to the ocean.

### Indulge in a Feed (or two)

A visit to PEI is not complete without a feed of our famous lobster. Fisherman's Wharf and New Glasgow Lobster Suppers have locals divided as to which is the favourite lobster supper experience. The only way to be sure yourself is a visit to both while in the north shore.

### Visit a Quaint Village

Victoria by the Sea is a picturesque fishing village on the southern shore brought to life by the many artisans who call it home. This quaint seaside village is the place to go when you truly want to get away from it all. Rent a kayak from By the Sea Kayaking and enjoy Victoria from the sea, or book an excursion with an experienced guide.

Looking to burn off some energy? Walk the Victoria Park boardwalk and admire the sparkling waters of Charlottetown Harbour. Or take the kiddos to the accessible playground full of swings, slides and things to climb. On a hot day, there's no better way to beat the heat than a run through the splashpad or a dip in the pool. Finish the day with a cone at Kiwanis Ice Cream Bar.

### Stomp your feet

PEI is a music lovers paradise. Enjoy a cold beverage and keep your toes tapping by listening to live music at a number of local establishments. ## POINTS EAST BUCKET LIST

As one of the most cultural and scenic areas in Atlantic Canada, there is plenty to explore along the Points East Coastal Drive. Although the drive itself is magnificent, without a to-do list you'll miss a lot of the local treasures that line Eastern PEI.

### Explore the Island's Natural Beauty

Things to explore in Greenwich National Park could create a bucket list in itself. The spectacular parabolic dune system rises above white-sand beaches and acts as a stunning backdrop to an extensive trail system that includes a floating boardwalk.

### Relax at a Spa

Sink into the ultimate in relaxation along the beautiful St. Peter's Bay. Mysis Nordic Spa features a state-of-the-art thermal experience that alternates hot, cold and rest to achieve a deep state of rest within the body and mind. Enjoy top-tier food and beverage at the onsite restaurant, then settle into a water view accommodation to watch the sunset.

### Hit the Beach

Beaches are plentiful on PEI with more than 50 options along the eastern shores. Among them, Basin Head Beach is one of PEI's most loved. Its 'singing sands' sets it apart from all the rest.

Panmure Island | Photo: Devon Bernard

### Golf with a View

There is no shortage of options to 'drive' your way through the Points East Coastal Drive. From descending hills with picturesque coastal views to forested corridors hugged by sparkling lakes, you'll quickly fall in love with golfing Island-style.

### Chase the Light

Only eight lighthouses on PEI are open to the public and luckily six of those can be found along the Points East Coastal Drive. A visit to one of these beautiful, heroic and romantic structures provides endless photo opportunities and a chance to step back in time.

### Fireworks Feast

At The Inn at Bay Fortune, Chef Michael Smith has combined a dedication to farming, a respect for the mysterious and magical potential of cooking exclusively with fire, and a love of sharing the food experience amongst friends for a culinary experience you won't soon forget.

### Experience Roma

Step back in time with a visit to Roma at Three Rivers National Historic Site where Jean Pierre Roma, a visionary French businessman developed an international trade centre in 1732. Enjoy a delicious home-cooked heritage meal or purchase bread made daily in an outdoor stone oven. Explore trails and gardens to see if you can find the hidden beach.

### Bike the Trail

PEI's portion of the Trans Canada Trail is quite special. There are 435 km of groomed, well marked trails that are formerly PEI's railway system. Since the conversion from trains to trails in the late 80's, people have been enjoying the Confederation Trail for walking, running and cycling. The trail spans tip-to-tip across the Island, but a popular section is the ride from Mount Stewart to St. Peters. You can't top biking next to the water!

## EXPLORE THE LOCAL MUSIC SCENE

There's something magical in the way PEI celebrates music. As much a local staple as potatoes and shellfish, music fuels the Island's culture. Each evening Islanders and visitors come together to revel in live local talent and celebrate jigs, reels, shanties and tunes. Day after day, there's new music to listen to, learn, and love in concert halls, community theatres and event grounds across the Island.

### Join in Community Celebrations

If there's one thing Islanders love, it's celebrating their communities. During the summer, communities come together to showcase local businesses, organizations, clubs, and talents during their town festivals. A primo spot to enjoy local live music is at festival parades. Whether you're a woodwind fan or prefer traditional bagpipes, check out the PEI Potato Blossom Festival in O'Leary, Gold Cup and Saucer Parade in Charlottetown, or the River Clyde Pageant to join in community celebrations or take in one of the DiverseCity celebrations across the Island.

### Be Serenaded on Charlottetown Streets

POV: You're strolling Charlottetown's historic city streets, sipping a cold beverage, while window shopping for that special local treasure to take home. What could make it better? Live music! Local musicians perform daily at various stages around Charlottetown to make your downtown visit all the more musical. Check out TD Always on Stage on Richmond Street or the Sydney Street Stage to enjoy a free performance.

### Tap Your Toes at Local Music Festivals

Don't miss the magic of hearing music within the walls of St. Mary's Church with concerts all summer long at the Under the Spire Music Festival. The Festival of Small Halls has an awesome two-week line-up at more than 40 charming small venues across the Island, and it doesn't get more Island than home-made treats served at intermission! Rock out in Tyne Valley at Rock the Boat Music Festival featuring rock bands from PEI and beyond. Whether you're a fiddle player or not, the Rollo Bay Fiddle Festival brings people from all over the world to the Eastern end of the Island to celebrate PEI's rich music history.

Gold Cup Parade

### Enjoy Dinner and a Show

There is arguably nothing more 'Island' than sipping a local brew and savoring the freshest seafood, while local musicians serenade you. Some of the best spots to enjoy local musicians are Bogside Brewing, Trailside Music Hall, Hunters' Ale House and Harmony House Theatre. Village Musical Acadian turns up the volume with their Dinner Theatre for an evening full of laughter, great music and a delicious meal.

### Get Cozy at a Ceilidh

One of PEI's longest standing (and most heartwarming traditions) is coming together for a Ceilidh. Local performers showcase their talents in intimate music halls, community centres, and churches, entertaining audiences across the Island. There's never a dull moment at a Ross Family Ceilidh as they showcase Celtic and Acadian roots music through catchy songs and haunting ballads, with no shortage of driving fiddle sets and stunning step-dancing sprinkled in between!

Under the Spire Music Festival

Covehead Lighthouse

## MUST VISIT PEI LIGHTHOUSES

The lighthouses of Prince Edward Island are some of the Island's most iconic landmarks. Along our 1,100km of coastline, dozens of lighthouses can be found dotting the bright red cliffs. They symbolize strength in the face of adversity and finding direction in challenging times. Surrounded by wild waters and windswept cliffs, their light has been a comforting beacon on dark nights for generations. While exploring their beauty by day you'll feel the wind whip through your hair, smell the salt and take in some of the most stunning panoramic views PEI has to offer.

### **Covehead Lighthouse**

Covehead is home to PEI's smallest and most charming lighthouse. Because of the ever-shifting sandbars, the 8.2m structure has been moved and modified a few times since its original construction in 1967.

### **Cape Bear Lighthouse**

Cape Bear Lighthouse, built in 1881, is a typical example of second-generation lighthouse design. It houses one of seven Marconi Wireless Stations established by Marine and Fisheries in 1905-06. Here at the southeastern tip of PEI, Thomas Bartlett heard the first distress signal from the Titanic as it sank off Newfoundland in 1912.

West Point Lighthouse

### West Point Lighthouse

The West Point Lighthouse is a distinctively designed 20.6m wooden lighthouse that was built in 1875 to guide vessels through the western entrance to the Northumberland Strait. Today, the West Point lighthouse offers the rare opportunity to sleep like a lighthouse keeper!

### North Cape Lighthouse

The need for a North Cape Lighthouse was obvious to mariners from as far back as 1534 when Jacques Cartier wrote of the dangerous rocky shoal, the longest in North America. It was built in 1865 and is one of three similar octagonal, wood-framed tower lighthouses that are some of the oldest of this style still standing in the Maritimes.

Wood Islands Lighthouse

### Point Prim Lighthouse

Point Prim Lighthouse has guided vessels through the southeastern entrance to Hillsborough Bay at the outer approach to Charlottetown Harbour since 1845. Point Prim is the oldest lighthouse on the Island and one of only a handful in the country that are made of brick. The harsh weather took a toll on the brick and it had to be shingled just two years after construction.

### Seacow Head Lighthouse

Seacow Head Lighthouse is one of the three sister lighthouses built in the same tall, octagonal shape. Along with Cape Jourmain, it has provided navigation for vessels passing through the narrowest point of the Northumberland Strait since 1863. This stunning lighthouse sits atop a long red sandstone cliff that creeps nearer with each crashing wave as erosion has its way with the earth.

### Wood Islands Lighthouse

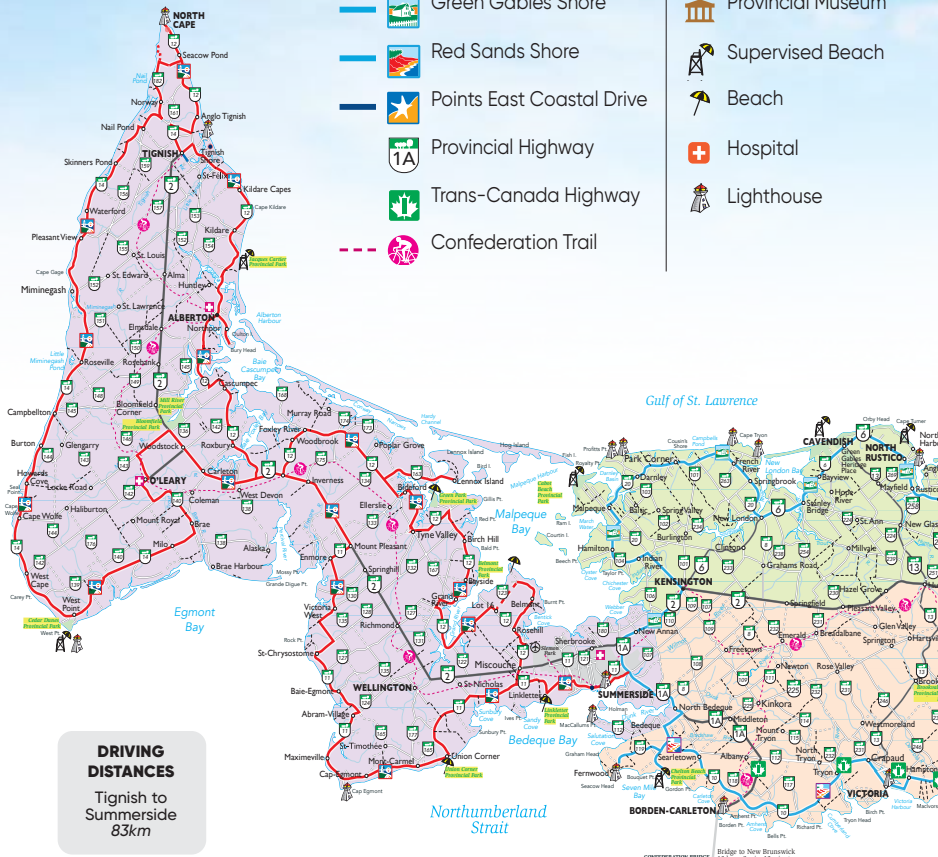

Wood Islands Lighthouse stands 15.2m at the entrance to the ferry docks and has been an important navigational aid since 1876. Now, the active lighthouse is open for daily tours and the six room, two-storey keeper's dwelling houses a nautical craft shop and a breathtaking 360-degree tower top view.
